

V A L U E 1 0™

H E A T P U M P

Efficient and economical cooling and heating from a heat pump that delivers traditional Lennox quality at an affordable price.

Value never goes out of season. So, we built the Value 10™ heat pump to offer affordable comfort year round. Lennox quality that's priced right. That's a comfortable value from the company you trust.

PERFORMANCE

For over 100 years, people have trusted Lennox to build products that offer home comfort that's efficient, reliable and affordable. That tradition continues with the Value 10™ heat pump.

With its hermetically sealed and suction-cooled compressor and its special Lennox-designed outdoor coil, the Value 10 heat pump offers reliable efficiency. It even has an automatic time-temperature defrost control to prevent damaging frost build-up.

WARRANTIES

We build according to internationally recognized ISO 9002 standards. And, we stand behind our products with some of the best warranties* in the industry. The Value 10 heat pump is backed by a 5-year limited warranty on the compressor and a 1-year limited parts warranty. That's one more reason to trust Lennox.

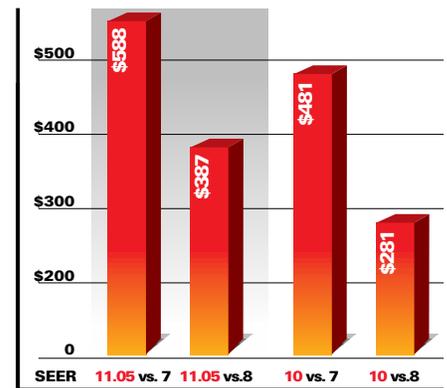

ENERGY SAVINGS

When it comes to energy savings, the higher the SEER and HSPF rating, the greater the efficiency. The Value 10 heat pump carries efficiency ratings of 10.00 to 11.05 SEER and 6.80 to 7.30 HSPF.

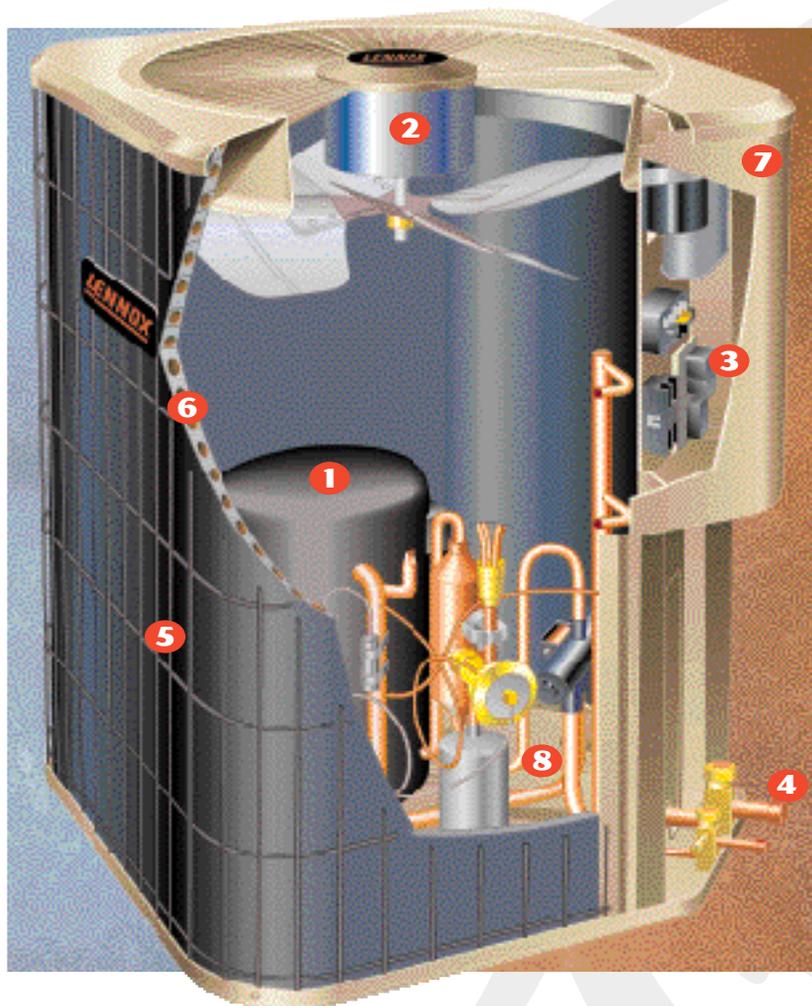

Older units, even those installed only five years ago, operate at much lower efficiency and can cost you money each month on your utility bill.

The chart above compares the 3-year savings you can expect from Value 10 heat pumps versus units with lower efficiency ratings. Costs are based on industry averages for a typical 3-bedroom house in a city with 1,200 cooling hours per year. Your actual savings will vary depending on the weather, local fuel rates, indoor coil and your lifestyle.

* Warranties noted apply to residential applications only.

QUALITY COMPONENTS

1 *Hermetically Sealed Compressor — Designed for reliability, efficiency and low cost performance.*

2 *Quiet Direct-Drive Fan — This precision-balanced, direct-drive outdoor fan is designed to run slower for quieter operation and longer life.*

3 *Automatic Time-Temperature Defrost Control — Solid-state control operates in cold weather to reduce stress of freezing temperatures on the unit.*

EASY MAINTENANCE

4 *Reusable Service Valves — Environmentally friendly by helping keep refrigerant from escaping during routine service.*

5 *Durable Coil Guard — Non-corrosive PVC-coated steel wire guard protects the coil from damage and is designed so that debris naturally falls away from the coil, maintaining the efficiency of the unit.*

EFFICIENT DESIGN

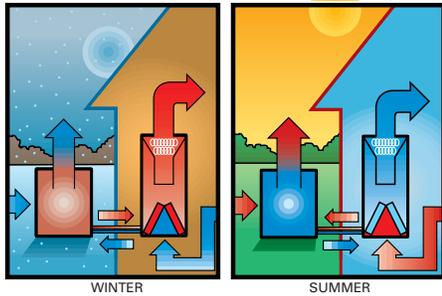

6 *Efficient Outdoor Coil — The reliable 100% copper tubing/aluminum fin outdoor coil provides exceptional heat transfer and low air resistance for efficient operation.*

LOOKS GOOD YEAR AFTER YEAR

7 *Corrosion-Resistant Cabinet — A durable, baked-on enamel finish protects the heavy-gauge, galvanized steel cabinet against rust and corrosion.*

8 *Drainage Holes — Strategically placed to prevent damaging moisture from collecting inside the unit's base pan.*

TOTAL HOME COMFORT

Lennox is committed to providing you with the finest in quality home comfort. That commitment includes offering accessories that can make your home even more energy efficient and comfortable.

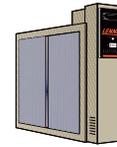

QUALITY DEALERS YOU CAN COUNT ON

Choosing the right dealer for your heating and cooling needs is every bit as important as choosing a particular brand of equipment. That's why Lennox has the industry's only Quality Dealer Standards program. Lennox dealerships are independently owned and operated

and have to meet Lennox' high standards. We think you'll agree they're a big reason why you can always count on getting a quality product whenever you call on Lennox.

ELECTRONIC AIR CLEANERS

An electronic air cleaner purifies the air and provides respiratory relief by removing dust, dirt and pollen.

HUMIDITY CONTROL

The EfficiencyPlus™ comfort control allows you to adjust the relative humidity inside your home without affecting room temperatures for maximum comfort and energy efficiency.

ELECTRONIC THERMOSTATS

A proven energy saver, an electronic thermostat provides added comfort, convenience, and time-saving fingertip programming.

LENNOX® ONE LESS THING TO WORRY ABOUT.®
